**“Air cooling equals Water cooling”, Zaward’s new Air cooling CPU Cooler “VIVO” performs equivalent to Water cooling.**

Zaward Corporation, a professional thermal provider aims to create best product to user’s demand.

Today it brings a radically invention “VIVO” to contradict the stereotype that Water cooling performs superior than Air cooling solution. VIVO, Zaward’s latest CPU Cooler, is a superb Air cooling solution, featuring intelligent soldering free heatpipe direct touch design, allows immediate heat conductivity from CPU to 3 high transmitted U shape heatpipes connected with high density fins for ultimate heat dissipation. Chic cover design, perfect combination of white cover, Golf fan and black mesh, creating Jil Sander’s understated and sleek design concept in PC industry. Super value saving dual golf fans, gorgeous streamline design, optimized fan speed in 2000rpm, one to blow in, another to suck out, reinforce extreme push to accelerate optimum cooling efficiency under extremely quiet operation! Support universal clips in Intel LGA 775; AMD’s 754/939/940, AM2, easy installation and user’s friendly. Bonus Zaward thermal grease enhances thermal efficiency. VIVO outperforms any Air cooling products and operates equal to Water cooling ones. A second to none CPU cooler and surely the best choice!

**Product Features**

1. Intelligent and soldering free heatpipe direct touch base!
2. 3 high transmitted U Shape heatpipes for repaid heat dissipation.
3. Chic cover design, outstanding and differentiation from others.
4. Dual 92mm round Golf fans with optimized fan speed boost powerful cooling performance dramatically, meanwhile, extremely silent!
5. Conquer any current Air cooling solution and performance equal to Water cooling ones.
6. Universal clips, Intel LGA 775; AMD’s 754/939/940, AM2. Easy installation and user’s friendly.
7. Bonus Zaward thermal grease enhances thermal efficiency!

**Heatpipe Direct Touch**

**3 U Shape Heatpipes**

**Efficient & Silent Golf Fan**

**Dual 92mm Golf Fans**

## Specification

Application	Socket	CPU (Max.130W)
Intel	775	Core 2 Extreme Kentsfield XE series
		Core 2 Quad Kentsfield series
		Core 2 Duo Allendale series
		Core 2 Duo Conroe series
		Core 2 Extreme Conroe XE series
		Pentium 4 Prescott series
		Celeron D series
AMD	AM2	Sempron series
		Athlon 64 series
		Athlon 64x2 series
		Celeron D series
	940	Sempron series
		Athlon 64 series
	939	Athlon 64x2 series
		Athlon 64 FX-62 series
		Athlon 64x2 series
		Opteron series
Product Dimension	LxWxH=120.7x98.0x151.0+/-1mm	
Material	Copper Heatpipe base & Aluminum fins	
Heatpipe	Copper $\varphi$ 6mm x 3 pcs	
Weight (NET)	500+/-20g	
Fan Dimension	$\varphi$ 92x25mm	
Bearing Type	Sleeve bearing	
Fan Speed	2,000rpm+/-10%	
Air Flow	37.61 CFM	
Noise Level	24.7dBA	
Max.Rated Current	12VDC	
Life Expectancy	26,000 Hours	

### **About Zaward Corporation**

Founded in 1996, targets to expand own-branding in retail market, product range includes fans, Coolers domain of Heatsink, Water cooling and VGA cooler, Power supply and computer peripheral accessories. It implements every effort to develop innovative and cost effective products to meet the customers' needs and invent user-friendly, products to feel free in the computer world created by Zaward.
